

Miele&Musica @t Hotel and SpaDesign Napoli 14-18 novembre

Miele & Musica, Cedia certification 2007, after a three years monitoring by the Examination Commission which collects in its book only 226 designers all over Europe, is a leader company in projects works, especially in acoustics optimization, automation technology, illuminating engineering, for cinemas, multiplex, theatres, didactics rooms, concert halls, clubs and discos, hotels, multipurpose centers. The company is also specialized in the control systems for hospital operating theatres and for manufacturing companies with production line machineries.

This reason prompts us to take part in the exclusive event " Hotel and Spa design 2010" from the 14th to the 18th of November, at the wonderful Mostra d'Oltremare in Naples: it is a must event not only to show our projects and our products but also to show our the know-how and the twenty years experience in the environmental and applied acoustics optimization and in the supervision and control systems. Our company will participate realizing acoustic-visual systems able to generate, provoke, excite, sensorial emotions. In particular, we will play with these emotions inside a hotel suite designed by architect Diego Granese.
