Una mostra-evento interamente dedicata al rapporto tra albergo e ambiente, con progetti che interpretano concetti innovativi legati a sostenibilità, ospitalità e benessere.

An exhibition-event dedicated to the relationship between hotel and environment, with the projects that interpret innovative concepts related to sustainability, hospitality, wellness.

L'Italia è il primo paese europeo per numero di strutture ricettive ecosostenibili. Ma è in netto ritardo per quanto riguarda la consapevolezza ambientale dei nostri connazionali. Per questo la filosofia di Hotel Spa Design, la mostra espositiva itinerante su contract, design e benessere dell'ospitalità, format sviluppato e gestito da **Carlo Matthey** e dallo staff di My Exhibition, si muove su una duplice direzione: da un lato sensibilizzando gli operatori del settore turistico per migliorare la gestione della propria struttura, mentre dall'altro incor-

raggiando l'ospite a comportamenti più rispettosi. Hotel Spa Design 2011, forte del grande successo delle passate edizioni, presenta "2015 Eco Resort & Spa", mostra organizzata da My Exhibition in collaborazione con Fieramilano Rassegne S.p.A., che ha ospitato le seguenti installazioni: Aetherea - Studio Bizzarro&Partners, Eco Logical Spa - Chiochini & Partners, Edelweissuite - Dada Architecture + design, Love Suite Love - Now Architecture and design Lab, Agorà HS - Granese Architecture & Design Studio, Spa Passion - Dueauno.
